

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

Founded in 1992, Directional Technologies, Inc. is a horizontal directional drilling company specializing in providing solutions to the environmental industry using Horizontal Remediation Wells. In addition, the company uses directional drilling to trenchlessly install conduits for fiber, electric, gas, and other utilities. We are experienced in contracting with federal, state and local agencies as well as commercial and industrial customers internationally.

## CORE SERVICES

- Horizontal Remediation Well Systems
- Horizontal Directional Drilling

## DIFFERENTIATORS

- 24 years of experience
- 1,000+ Horizontal Remediation Wells installed
- 100 of miles of underground conduits installed
- Utility and Environmental industry experience ensures cost efficient methods are utilized
- All crews are 40 OSHA trained, drug tested, have TWIC card, completed background checks

## PAST PERFORMANCE

- **Air Force Base - Rome, NY** - Installed deep horizontal remediation wells under an air force structure for environmental remediation.
- **Munition Site – Washington, DC** – Soils samples were obtained under a building using horizontal directional drilling without disruption to the project site.
- **Hurlburt Field Air Force Base - FL** – Provided in-situ remedial construction without shutting down the busy air field by using directional drilling to install horizontal remediation wells.
- **US Army - Cape Cod, MA** – Installed conduits in environmentally contaminated area and avoided costly excavations.

### Company Data
